

Name: \_\_\_\_\_

Date: \_\_\_\_\_

### Room 12 WWW Assignment #24

Go to the Weekly Link:

<http://athena.wednet.edu/curric/space/comet/index.html>

Who discovered the comet? \_\_\_\_\_

Go down a little on the page and look at these:

- Star Chart for morning viewing
- Star Chart for evening viewing
- Timeline for Hale-Bopp viewing

(you can print these out and take them home to show your family)

Go down to the very bottom of the page and select "Comet Hale-Bopp Quicktime Movie". See if you can drag the movie player along slowly to see how the comet is passing by the planets.

Find the neatest picture of a comet that you can. Click on it with your right mouse button and select "Save Picture as..." We will be saving all of these in a desktop folder called "Comet Hale-Bopp". Mr. Ahlness will help you.
